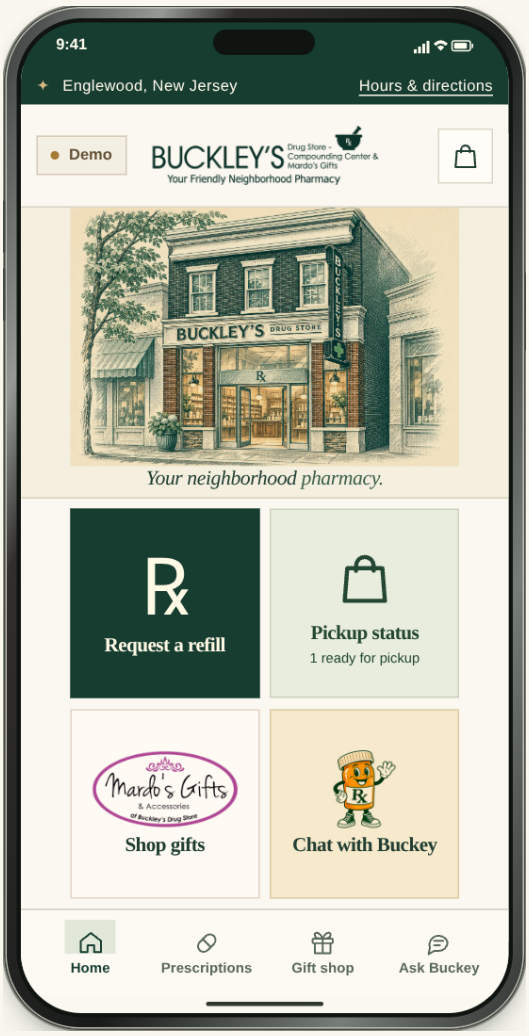
MOBILE APP FEATURE GUIDE

Buckley's Rx

Prescriptions, Mardo's Gifts, and Buckey in one app.



Prescriptions & pickup

Request a sample refill and watch its status move to Pending. Open a ready prescription to review its balance, try a demo payment, and see the receipt.

Mardo's Gifts

Search eight photographed gifts, filter by category, and adjust quantities in the bag. A demo pickup order creates a receipt you can reopen.

Ask Buckey

Ask "Is my prescription ready?" or "Help me find a candle." Buckey uses the demo account and gift catalog to answer. Medication questions go to the pharmacist.

The Buckley's icon

Buckey waves from a warm ivory background. His amber bottle carries the green Buckley's B and Rx mark. Look for him on the home screen to open chat.

Try the interactive iPhone demo

Tap the link or scan the code to explore the app.

Open client demo

The preview uses fictional prescriptions, sample prices, and simulated payments. Live patient records, purchases, and store submissions are outside this demonstration.
